DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, 4-15 and 17-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 9 recite:

An underlayer formed of a substantially-chemically-ordered alloy having a tetragonal crystalline structure, the alloy selected from the group consisting of alloys of AuCu, FePt, FePd, AgTi₃, Pt Zn, PdZn, IrV, CoPt and PdCd, said underlayer alloy further comprising at least one element selected from the group consisting of Pd, Fe, Pt, and Rh.

Claim 22 recites:

An underlayer formed of a substantially-chemically-ordered alloy comprising Au and Cu and having a tetragonal crystalline structure and having a thickness between about 10 and 200 Angstroms.

The closest reference, Yoshikawa et al (US Patent Number. 6847509), discloses an underlayer that can be made of the disclosed elements, however, does not disclose an underlayer made from an alloy of three individual elements or to the detail as set forth in the claims above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
